

COMPATIBLE DIMMERS

We've tested the most widely used dimmers on the market to guarantee the best possible performance with our bulbs. The dimmers below have proven themselves time and time again for their quality, compatibility and uniformity. For best results, use only one type of Tala bulb per dimmer and do not mix different bulb brands.

RECOMMENDED

EU

Varilight - V-pro JXP401

US

Lutron - Diva DVELV-300P-XX
(XX denotes faceplate colour)
