Clean with a soft duster, or soft dry cloth

MERIDIAN SCONCE | RECTANGLE

Inspired by life at the edge of the ocean, the Meridian Collection utilizes the elemental texture of sand cast brass and a playful array of formats to create fixtures which can be used alone or in creative combinations. O&G co-founder, Jonathan Glatt, drew on his background as a metalsmith and jeweler to create forms which take unique advantage of the textural and sculptural properties inherent to the ancient method of sandcasting. Each fixture is cast at an 80 year old family foundry and hand finished at O&G’s Rhode Island Studio.

shown with G19 bulb
